It was our pleasure, for the first time, to visit Liberty lart week, to meet the good people of that town and from varions parts of the county who were drawn there by the attractive features of the Liberty Fair. The Fair was a successition coming out a head at least 25 per cout, while no complaints were made by exhibitors. The first day a good crowd was not, but the down pour of rain in the early afternoom delayed business. The second showed at least 2,000 desirons to see the shows and mingle with their friends, while the third, while was the last, was not quite so good in attendance. The very best order prevailed, there being no distubutores whatever. As above stated, it was our first visit and was made for no other purpose than to meet our few friends and acquaintances, to expand the same, if possible, and to broaden our knowledge of that town, the people and resources, I was one of the most pleasant town, the people and resources. the stranger as the intelligence and gennise hospitality of the people.

Southern Kentucky, not burdened with extreme wealth, has no aristoracy to land the claims over an honest, intelligent and industrious populace, but recognizes the noble virtues that bind heart to hosh virtues that bind heart to hosh virtues that bind heart to heart, community, as quality, and traly makes counties loving sisters. It is a hand-shake community, a pull the latch-strug section, and in these particulars the people of Gasey county are not an exception.

The many new acquaintances formed during our short visits, the special interest manifested by the mambers of the Liberty Bandmarking us their guest, could only sorre to deeped our appreciation not meably for those, but the community of which they are a part. The striking obarnetersize of the Liberty people seem to be friendship, liberality and progress.

We trust that in the future the two towns, Columbia and Liberty, may be closer identified with each other's welfare, and that we may have the pleasure of further extending our acquaintance, and last, but not least, that in our particular sphere of work we may render some good to the people of Gasey county.

The Republican County Committee has called a primary to set the time Giboney-Wesly modeller for the circuit clerkship, but stoble assens to be taking root in the legalitative race. The State Contral Committee in dealing with the Gononey-Wesley context, ruled that the convention held at Liber in Language. Chooling-Westey contest, ruled that the convention held at hiberty in January last was erronous, for in other greds, no convention was held and that nominations made their were no good. That of course left Capt. Ed. Pelley, who secvived the nominations for the legislature, out in the weather, and another nomination must be, ande for that position. Pelley holds a certificate of nomines? I not from the Secretary of the 7 nom from the Secretary of the 7 numery convention; and there? I have a reported to have a "lis. A Mr. Murphey a prominent young Republican of Big South, is a caudidate and it was reported to us a few days since that R. S. Rector, of Dunnville, had a legislative bee burzing in his bonnet. Sam has always been a caudidate, but up to this writing has failed of electicu. There are others who would not mind going down to Frankfort to stay a couple of months. For instance there is J. H. Thomas. John Henry is no Tool by a long shot, besides he is the cleverest of the "whole shoot: his much good as any other Republican is a Semocratic Legislature; and there are others I could mention. In fact the Republican is a Semocratic Legislature; and there are others I could mention. In fact the Republican is a Semocratic Legislature as a bob-tailed bull in fly time.
